Hello,

Attached to this e-mail are a full sized and condensed, **searchable PDF** version of the above stated deposition. If there are exhibits, they are included in the full size PDF. There is a word index in the Bookmark section of both the full and condensed transcripts to make searching easier. If you need to clip sections of text out of the transcript you may do so in either the full or condensed versions. Additionally the PDF format can be viewed by Apple and Windows computers.

?? For the electronic format, the full size will give you single page display with easy navigation.

?? The electronic format has a word wheel on the left (not the right) to "just click on the right to find a word you need quickly." You can set a default view so that when you first open the file, the "Bookmarks" tab is open with the word list.

We have also included a text file of the transcript to allow you to upload the transcript into any other program, such as Case Manager.

If you find that you still require the transcript in PTX (etran) format, please send an email to production@ktanda.com. We will convert the transcript to PTX format for you.

All Files will be uploaded to your Repository within 24 to 48 hours. This consists of all exhibits and the final transcript.
